Detail-oriented Frontend Developer with hands-on experience in React, Tailwind, API integration, state management, and performance optimization. Dedicated to delivering high-quality, user-centric web applications

Experience

- **Frontend developer - DIX INFOTECH** July 2024- Nov 2024
 - Developed and customized responsive WordPress websites for multiple clients.
 - Built and optimized website layouts to improve UI/UX and overall performance.
 - Contributed to client projects such as:
 - theindustrialmall.com
 - daksh.co
 - Collaborated with senior developers to implement design updates and fix UI bugs.
- **Jr. frontend developer - EXPERTZ TRUST FINFRA PVT LTD** April 2025- Present
 - Designed and developed dynamic WordPress websites for clients including:
 - expertzdigitalsolution.com
 - expertztrustfinfra.com
 - expertzfinedinerestrocafe.com
 - Integrated REST APIs and handled the complete frontend logic for multiple web modules.
 - Implemented Google Authentication and tested backend APIs using Postman.
 - Created and managed social media posts & digital marketing content for 20+ days.
 - Worked on “Diginfra”, a real estate platform similar to 99acres/SquareYards, focusing on:
 - Property listing UI
 - User dashboard
 - Filter/search functionality
 - Overall frontend workflow and integration

Education

- **Bachelor of Computer Science** 2021 - 2024
 - K. L. Mehta Dayanand College (MDU)
